

William L. Rice, III, M.P.T., B.S.

- Ohio Licensed Physical Therapist
- Education:
 - Master of Physical Therapy - Ohio State University
 - Bachelor of Science in Business Administration - Ohio State University

Mr. Rice has practiced in both outpatient and inpatient settings during his career, including a cardiac step down unit and a neurological injury clinic. He has presented on topics such as using the Oswestry Disability Index for predicting treatment outcomes and spinal segmental stabilization therapy.

Mr. Rice also worked for the Central Intelligence Agency as a Logistics Officer early in his career. His varied experience adds to his ability to relate to his patients and makes his approach to patient care a personal experience. Mr. Rice has helped to perpetuate the growth of our New Albany office and continues to use his knowledge of clinical research to create learning experiences for the rest of the staff.

Justin L. Weisbrod, M.P.T., B.S.

- Ohio Licensed Physical Therapist
- Education:
 - Master of Physical Therapy - Ohio State University
 - Bachelor of Science - Bowling Green State University

Mr. Weisbrod has practiced in acute care, neurological critical care, surgical trauma ICU, outpatient orthopaedics, sports medicine, and aquatic therapy. He has also worked as a personal trainer for California Fitness Centers. Mr. Weisbrod uses his varied experience to create custom rehabilitation plans for his patients in order to meet their individual needs.

Mr. Weisbrod is currently heading the Wellness Program at TheraCare Physical Therapy including fitness testing, personalized fitness programs, and sports specific enhancement training. His participation in sports such as football, wrestling, discus and golf adds to his skill and ability with the athletic patient population.

Cynthia D. Pulliam, P.T.A.

- Ohio Licensed Physical Therapist Assistant
- Virginia Licensed Physical Therapist Assistant
- Education:
 - Associates in Applied Science, Physical Therapist Assistant - John Tyler Community College

Ms. Pulliam received her training at John Tyler Community College in Chester, Virginia. Her experience in many areas of the physical therapy field include: sub-acute rehabilitation, geriatrics, school based physical therapy for neurologically and developmentally delayed students, and outpatient rehabilitation.

Ms. Pulliam has expanded her skill through continuing education topics such as Myofascial Release and Craniosacral Therapy, Spasticity Management, Developmental Dyspraxia/Developmental Coordination Disorder, Exercise and the Medically Complex Cardiac Patient, and Use of the Allen's Cognitive Assessment Battery with Neurological Impairments.

In addition to her varied experience and background, her personal approach and emphasis on patient - therapist relationships increases her effectiveness as a health professional.

Tamara S. Dotson, P.T.A.

- Ohio Licensed Physical Therapist Assistant
- Education:
 - Associate of Science Degree, Physical Therapist Assistant - Clark State Community College
 - Associate of Arts Degree, Social Services Technology - Clark State Community College

Ms. Dotson has focused primarily on outpatient orthopaedic care during her career. She is a graduate of Clark State Community College in Springfield, Ohio. Ms. Dotson has expanded her knowledge by continuing education course work in clinical biomechanics and rehabilitation of the foot and ankle. This includes: concepts and principles which emphasize current and innovative approaches to the evaluation and treatment of orthopaedic dysfunction. Additionally, she has participated in course work on the Pilates Method for use as therapeutic and corrective exercise with focus on core strength, stabilization and fluidity of motion.

Dena K. Knowles, P.T.A.

- Ohio Licensed Physical Therapist Assistant
- Education
 - Elementary Education - The Ohio State University

Ms. Knowles has practiced in the geriatric, orthopaedic, joint replacement, and home health care realms during her career. Ms. Knowles has worked in the physical therapy field for over 20 years. Her experience is a significant benefit to the patients that she treats. She has also attended many continuing education courses including: knee rehabilitation, connective tissue mobilization, and management of the hip, knee and ankle, as well as general sports medicine courses. Ms. Knowles dedicates herself to her patients, which is evidenced by her personal approach to patient care.
